PROFILE SUMMARY

Dynamic Computer Science undergraduate (2nd year) at the University of Westminster (via IIT), with 4+ years in web development and ICT diplomas (2020). Excel in backend technologies such as PHP/SQL and mentoring through local education. Seeking backend internships to build scalable applications and drive team innovation.

EDUCATION

University of Westminster

2025 - Present

- INFORMATIC INSTITUTE OF TECHNOLOGY, SRI LANKA | UNIVERSITY OF WESTMINSTER, UK
- Bachelor's of Computer Science
 - Complete 1st year with 120 credits
 - 2nd Year Studying

Pearson University

2020 - 2021

- Dip. ICT , Dip. English

Nalanda College

2012 - 2024

- GCE Advanced Level - Completed

WORK EXPERIENCE

Web Developer | Self-Employed (Online)

2021 – PRESENT

- Developed and maintained 05+ responsive websites for schools and businesses
- Handled end-to-end maintenance, including updates, bug fixes, and performance optimization.

Event Planner | Self-Employed

2021-PRESENT

- Organized 15+ events for school societies and clubs
- Adapted plans flexibly to ensure smooth and successful execution.

Web Developer | Rooster Web Development

2025 - PRESENT

- Developed and customised WordPress websites using premium themes, plugins, and hardcoded elements to deliver responsive, user-friendly interfaces tailored to client specifications.

2025 - 2026

AI-Powered Child Health Data Repository (CHDR) – “Bambino” | Software Development

Group Project (SDGP) | 2025–2026

- Developed an AI-powered web-based system to manage and analyze child health records efficiently.
- Designed and implemented features for data storage, retrieval, and real-time health monitoring.

PROJECTS

- Task Management System With Python and Tkinter.
- Web Learning Management Systems with HTML, CSS, JS
- Bus Seat Booking System with HTML, CSS, JS
- Simple Hotel Booking System with C# and C++
- Financial Control System for a Government Office.
- WordPress website for CAFS org.
- ClimEdge web development project.
- SDGP project for AI Powered CHDR (Bambino)

EXTRA-CURRICULAR

Confinity - Nalanda College ICT Day | 2024

- Participated in Confinity – Nalanda College ICT Day 2024, actively engaging in ICT-related competitions and showcasing technical knowledge and creativity. Collaborated with peers in problem-solving activities, presented innovative tech solutions, and gained hands-on experience through event-based challenges and demonstrations.

Hackathon Competition | IIT | 2025

- Participated in a Hackathon held at IIT premises, developing innovative solutions using Python and Java. Collaborated in a team environment, applied problem-solving skills, and built functional prototypes within limited time.

NASA Space Apps Challenge | (Online) | 2025

- Took part in the NASA Space Apps Challenge, collaborating on innovative solutions to real-world space and Earth science problems using creative problem-solving and technical skills.

CyberQuest Capture The Flag (CTF) Finale | Informatics Institute of Technology (IIT) | 2026

- Selected as a Finalist for the CyberQuest 6-hour Capture The Flag (CTF) cybersecurity competition.
- Competed in advanced challenges involving ethical hacking, cryptography, reverse engineering, and web security.
- Demonstrated strong problem-solving, analytical thinking, and teamwork skills under time constraints.

SKILL

PROFESSIONAL SKILL

- Management Skills
- Leadership
- Adaptability
- Creativity & Critical Thinking
- Communication skills
- Team player
- Problem-solving ability

TECHNICAL SKILLS

- Python
- HTML
- CSS
- PHP
- Java
- MySQL
- OOP
- React
- NodeJS

INTERESTS

- Cyber Security
- Front-end Development
- IoT
- Professional Development
- Content Creation
- Web Development

TOOLS

- IntelliJ
- MS Office
- Click Up
- VS Code
- Adobe Premiere
- Adobe Photoshop
- Canva
- Figma
- GIT
- GIT Hub
- AI Tools
- Visual Studio
- Adobe Illustrator
- Adobe After Effects
- XAMMP

LANGUAGES

Sinhala (Native) English (Fluent)
